

HR331642 SET [JW Speaker LED Flood Beam Panel Mount Light Kit, 2750 Lumens – (Pkg. of 6)]

Instruction Guide

1. Remove original light from machine and disconnect electrical wiring. The OE light is held in by clips on each corner. Apply pressure inward on corners of light to remove
2. Attach OE electrical connector to new JW speaker light offered by Hy-Capacity
3. Position light with correct side upward and press into bezel. Confirm that light is securely in place
